About me

I am a graduate of the University of Gdańsk. I am interested in both frontend and backend technologies. When programming, I pay special attention to details and try to write in according to the principles of clean code and SOLID. I am looking for new challenges and opportunities for development as a software developer.

Education

Bachelor's degree in practical computer science

at the University of Gdansk, intake 2020/2021

Diploma grade: 4.5

Master's degree in computer science

at the University of Gdansk, intake 2023/2024

Diploma grade: 5

Special achievements

rector's scholarship for being in the top 10% of students in the major
